SUNLIGHT presents Camper Van CLIFF 590 4x4 Adventure Edition

Adventure now. Offroad.

June, 9th 2022 – SUNLIGHT embodies freedom. SUNLIGHT embodies the drive to explore, to hunt new grounds, and pick new paths. Now, the young, adventure-driven brand from the South of Germany pushes the boundaries once more by introducing a 4x4 model to its product portfolio. With the CLIFF 590 4x4 Adventure Edition, SUNLIGHT takes its Camper Van on a route beyond – on desert roads, gravel tracks, or muddy paths: Adventure now. Offroad.

More freedom and new routes

For the Vanlife season 2022/23, SUNLIGHT is presenting the new CLIFF 590 4x4, a new version of its proven as well as popular Camper Vans. As the first of its kind, the CLIFF 4x4 (with a vehicle length of 598 cm) is built on a FORD Transit chassis. It features a powerful 170 PS motor, and the Adventure 4x4 decal plus black 16" alloy rims add to the sporty appearance of the Offroad Camper Van. SUNLIGHT further includes premium framed windows and a bigger awning in the edition.

Adventure on the outside. Comfort on the inside.

On the inside, the CLIFF 4x4 features the customized Adventure 4x4 furnishing, a new, fresh colour concept plus, of course, the signature SUNLIGHT comfort. Smartly integrated into the vehicle, the super comfortable rear transverse bed comes in a size of 192 or 189 cm length and 147 cm width. With an interior height of 2.02 m, you can move freely and enjoy great headspace.

The kitchen has been slightly tapered towards the front leading to more space and enhancing the feeling of openness. Further, the kitchen is equipped with a 2-burner hob with 12V ignition, a spacious sink, and a double door 70l fridge. Of course, you find a toilet on board just like in every SUNLIGHT model. It is separated - together with sink and roof compartments – from the living area via a foldable door.

The new CLIFF 590 4x4 Adventure Edition model will be available from dealers in the near future. Photo: SUNLIGHT

Further 4x4 highlights include the generous storage shelves that are integrated along the rear and grant easy, quick access. And for small essentials and accessories you find practical nets beneath the storage compartments.

The inviting seating area is fitted with ambient lighting integrated into the open overhead locker, which makes for cozy evenings.

The new CLIFF 590 4x4 Adventure Edition model will be available from dealers at an unbeatable price/performance ratio in the near future. The exact launch date for the UK has not yet been determined. Updates will follow at a later date.
